Scripture Reading Together: 1 Corinthians 1:18-25

1. Have you ever wished for something to 'bring you freedom' and realized either in time or in hindsight that it was the opposite?
2. God is the creator of every resource but not every resource is meant to be used by us. Can you think of some other biblical examples of this (Genesis 2:15-17)?
3. There are two errors we make. Paul says the Jews demand signs and Greeks seek wisdom - we typically fall into one of these categories. Are you 'demanding signs' to 'prove' the Bible and your faith? Or are you seeking wisdom to 'prove' the Bible and your faith? What do we need?
4. How can pride creep into our lives when we start believing we have figured out our salvation through our faculties or that we have figured out God? What does God desire (Jeremiah 9:23-24)?
